INTRODUCTION

THE COMPANY

Beginning in 1995, under the dynamic Chairmanship [Mr. S.P Singh Oberoi](#) with global outlook "[APEX INTERNATIONAL CONSTRUCTION L.L.C.](#)" has been doing the work on different construction projects in the U.A.E. and outside of the country also.

With a strong mix of commitment and discipline supported by hard work have helped the firm take great strides to add the land dewatering services in the license on 7/2004 and become "[APEX INTERNATIONAL CONSTRUCTION AND LAND DEWATERING L.L.C.](#)". Now company offers skills and capabilities in executing land

dewatering contracts or sub-contracts. The company also involved conducting Tie-Back Anchoring for the shoring wall support & conducting Compression static load test for the Pile. As a service driven firm company maintains a profile that caters to customers requirements.

Some of the Key features are: -

WORKSHOP: We have facility of having our workshop located at Aweer and Ajman fully equipped with required tools to take care of any emergency works at any time. All the required Equipments / Machinery are available with us along with all the spare parts of Pumps, Engines and other machinery. The accessories being used for dewatering works are readily available for any magnitude of jobs as we are running an Trading House i.e. "[APEX EMIRATES](#)

GENERAL TRADING Co. L.L.C" also dealing with all the Engineering Equipments / Machinery.

REPAIR TEAM: General repair of all our construction equipment is taken care by team of professional mechanics who are always mobile to take care of breakdowns at sites round the clock.

PROFESSIONAL STAFF: We have trained professional people for dewatering jobs of various categories. We are competent to handle jobs of all types with varying depth and different soil strata's in this part of the world.

Apart from above our service features include

- ❖ A through implementation of project requirements and total support for all on site activities during project implementation.
- ❖ The monitoring of the project on continuous basis being done by engineering wing of the company.
- ❖ The methodology during execution is explained apprehensively through drawings generated by professional AutoCAD personnel.

The motto of the company is to always give our best and provide the highest quality services from all quarters of our organization. With this commitment we enter into a dialogue with our customer in which advice and cooperation are the keywords.

The jobs of dewatering completed recently and jobs in hand on different projects along with machinery/equipment duly run by technicians are incorporated in the enclosed profile. Apart from implementation and professional know-how we are duly equipped with all the allied equipments and machinery.

Certificate of Registration

This certificate is hereby granted to the organization

APEX INTERNATIONAL CONSTRUCTION & LAND DEWATERING (L.L.C) BR DUBAI

P.O BOX NO: 48634, PLOT NO: 613-1392, RAS AL KHOR INDUSTRIAL AREA 2, DUBAI, UAE

This has been certified that the management system of the above organization has been audited and found to be in compliance with the First Quality Certification requirements for registration of the management systems standard detailed below:

ISO 9001:2015

(Quality Management Systems)

Scope of work

Land Draining Works, Tie-Back Anchoring Equipment, Static Load Testing, Stressing & Rebar Works, Electromechanical Equipment Installation and Maintenance & Coastal Reclamation Contracting

Certification Registration No: FQC/Q/1688/AE

Initial Issue Date : 02 March 2023
1st Surveillance : 01 March 2024
2nd Surveillance : 01 March 2025
Certificate Expiry : 01 March 2026

(Subject to the company maintaining its system to the required standard)

201901-05

Chief Executive Officer

This Certificate is subject to satisfactory annual assessment.
Accredited by Accreditation Service for Certifying Bodies LLC, 8 The Green, Dover, DE, 19901, United States, www.ascb.com
The authenticity of this certificate can be verified online www.firstqualitycertification.ae or by email to the Head Office info@firstqualitycertification.ae

EQUIPMENT USED FOR DEWATERING

GENERATORS-RANGING-60KVA-200KV

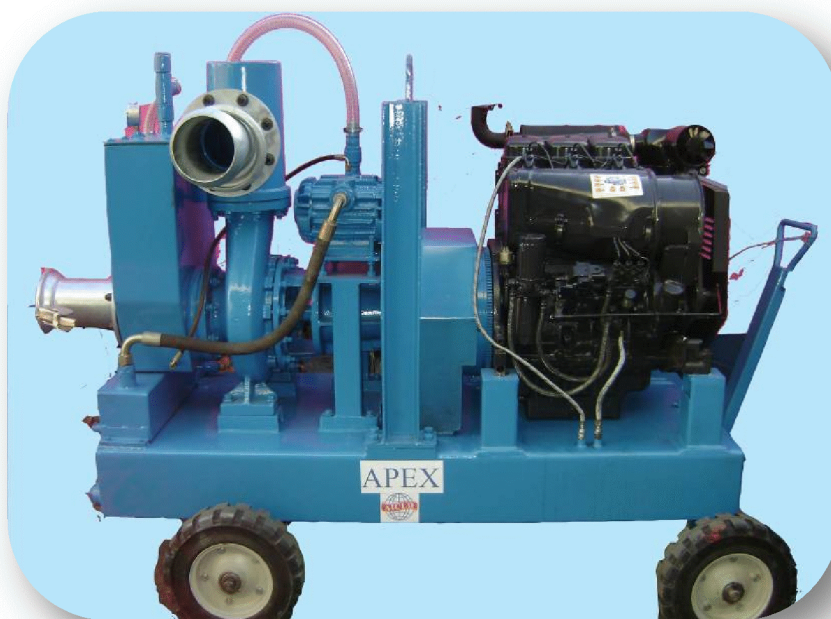

DRILLING MACHINE

APEX CENTRIFUGAL PUMP

SPECIFICATION AND PERFORMANCE

AIR COOLED DEUTZ THREE-CYLINDER DIESEL ENGINE, 34 HP, 2000 RPM, WITH FUEL TANK CAPACITY OF 200 LTR. Vacuum pump for automatic PRIMING & REPRIMING at 70 CFM. Carbon ceramic special mechanical seal for long life when used for sandy seawater.

Main Components

Volute	SG/Cast Iron/316 SS
Impeller	Bronze
Shaft	316 SS

Pump Performance

Max. Head	50 m
Max. Flow	300 m ³ /Hour
Max. Solid	50 mm
Suction Head	9 mtr.

Suction & Discharge

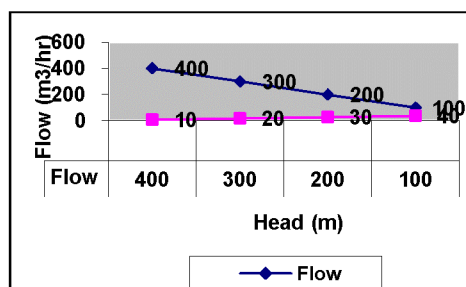

Suction Flange: 150 mm PN16
Discharge Flange: 150 mm PN16
Quick acting coupling optional

Chasis

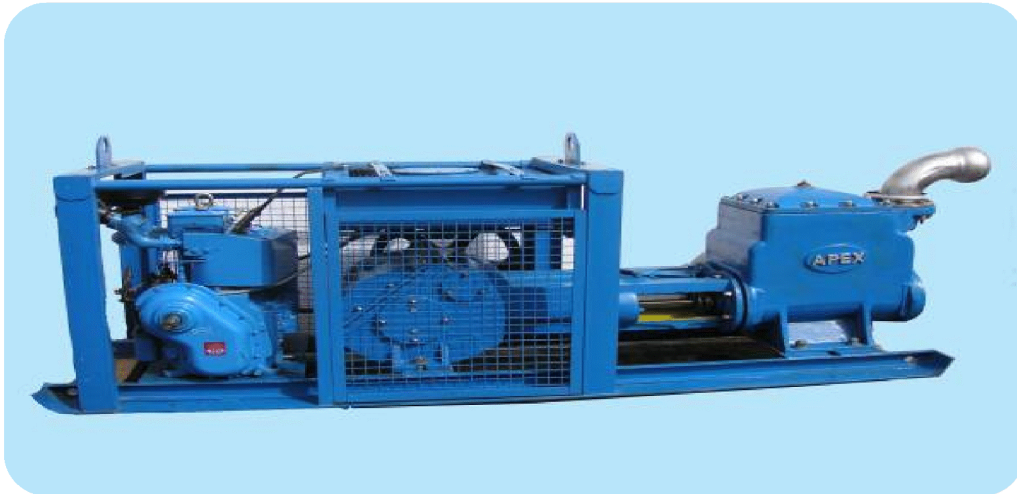

4 wheel site trailer.

Weight

1072 Kgs.

APEX PISTON TYPE SELF PRIMING PUMP

SPECIFICATION AND PERFORMANCE

AIR COOLED ZEN TWO-CYLINDER DIESEL ENGINE, 15 HP, 1800 RPM, WITH FUEL TANK CAPACITY OF 100 LTR.

Main Components

Liner	316 SS
Piston Collar	Leather
Shaft	316 SS

Suction & Discharge

Suction Flange: 150 mm PN16
Discharge Flange: 150 mm PN16
Quick acting coupling optional

Pump Performance

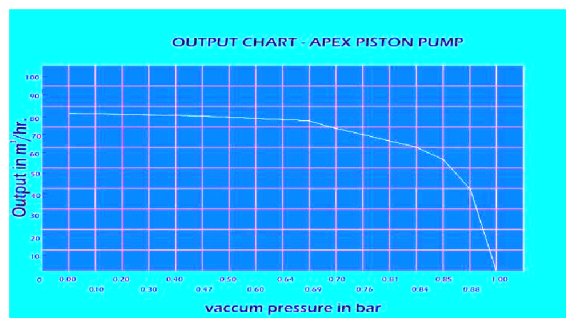

Max. Head	50 m
Max. Flow	250 m ³ /Hour
Max. Solid	50 mm
Suction Head	7 mtr.

Chasis

Skid Mounted.

Weight

1175 Kgs.

SUBMERSIBLE TYPE PUMPS

SPECIFICATION & PERFORMANCE

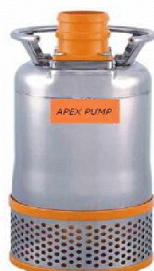

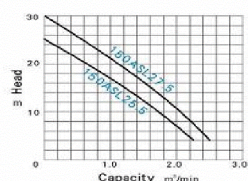

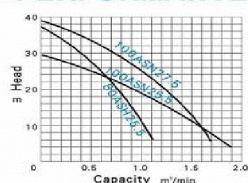

AS Type CONSTRUCTION DRAINAGE PUMPS

■ FEATURES

- Specifically designed for civil engineering applications for heavy duty, light weight, top outlet required.
- Double outer casing and water cooled motor design extremely appropriate for low water level and extended operation applications.
- Special designed high efficient and wear resistant HCR (High Chrome) impeller.
- Multi impeller design suitable from high head with small capacity to low head with large capacity of application requirement. (H: high, N: normal, L: large)
- Complete stainless steel outer cover of AS5.5~7.5kW exceptional consolidation design - weight less than 80kg of light weight structure and diameter 286mm of miniature outlook.
- Optional discharge connection (hose, flange and thread connection)

■ PERFORMANCE CURVE

■ APPLICATIONS

- Civil engineering - tunneling and ground works dewatering.
- Dewatering of fluids contain solid sediments.
- Easy of mobility for use by contractors - installers and service industries.

■ MODEL CODE

100	AS	N	2	5.5
Discharge mm	PUMP type	Impeller type	Pole	kW

■ SPECIFICATION

Pumping liquid	Discharge mm	80 100 · 150	
	Liquid temp	0~40°C	
	Liquid nature	Sandy · Waste water	
	Max depth	30m	
Pump	Impeller	Open	Enclosed
	Mech. Seal	Double Mechanical seal	
	Bearing	Ball type bearing	
	Out cover	SUS304	
	Upper cover	FC200	
	Casing	FC200
